### Rumors Talk Of Troops Near Border

Belgrade, Yugoslavia, Thursday, Sept. 1.—(AP)—Yugoslavia accused Russia today of using force to place this country in an "unequal and subordinated position."

The charge was made in an editorial in the communist newspaper Borba, official voice of the government of Premier Marshal Tito. The editorial was released by the ministry of information in advance of publication.

It came amid a flood of unfounded rumors about Soviet troop movements hard by Yugoslavia's borders. Thus far Yugoslavia has denied officially any "unusual" troop movements on her part, but Tito has cautioned his fighting men to remain on the alert.

### Lists Charges

The Borba editorial listed a number of charges against Russia and the Soviet-dominated satellite states in the Balkans' cold war of nerves. They included organization of an economic blockade against Yugoslavia, provocation of border incidents, sending spies into the country and threats against the government.

Borba charged Russia with attempting to "force upon our socialist country controls necessary to bring her into an unequal and subordinated position."

This has been the basis of the row between the Russians and the Yugoslavs. Tito has demanded an "equal voice" with Moscow in determining the affairs of Communist-ruled countries. So far the demand has been spurned by Russia.

### Might Go To U.N.

There was speculation without confirmation on a report that Premier Marshal Tito would send his case against Russia to the United Nations security council.

It was considered certain that a suit note is being written in reply to Russia's newest official charge that Tito's regime is a double-crossing stooge of the western powers.

Russia and Yugoslavia have been at political odds since June, 1948, when the communist bloc of Eastern Europe ousted Tito after accusing him of deviating from Moscow's Marxist-Leninist line.

A British embassy spokesman here denied a report published abroad that the British asked what would be Yugoslavia's attitude if the Yugoslav-Communist conflict should be put before the U.N. security council.

However, British officials in London said Britain asked Yugoslavia whether she intended to go before the security council with a case against Russia but no reply was mentioned. They added that the western powers have no intention of going to the U.N. with it.

## ABC Starts Court Battle On Curbing Giveaway Shows

New York, Aug. 31.—(AP)—A promised industry legal fight against drastic federal curbs on radio and television giveaway programs was opened today by the American Broadcasting Co.

The network asked federal district court for the southern district of New York to set aside the Federal Communications Commission's new rules on giveaways due to take effect Oct. 1.

The commission's rules, announced Aug. 19, would knock off the air a large proportion of the jackpot shows which award some \$5,000,000 a year in merchandise and cash to lucky listeners and studio contestants.

The Columbia Broadcasting System has said it also will bring legal action to nullify the rules. The National Broadcasting Co. has indicated it may do the same. Industry circles have predicted other broadcasts will join in the legal battle to save the giveaway.

## Safety Council Says 280 Will Die Over Labor Day

Chicago, Aug. 31.—(AP)—The National safety council forecast today a probable death toll of 280 in Labor Day weekend traffic accidents throughout the nation.

Ned H. Dearborn, president of the council, said "we cordially invite everyone to make us look silly in our gloomy prediction." He said a much lower highway fatality list is perfectly possible if drivers exercise reasonable care and good sense.

But, human nature being what it is, he said with the expectation that 33,000,000 cars will roll up a total of 4,000,000 miles from 6 p.m. Friday to midnight Monday, he said 280 dead is the logical expectation. "If the normal pattern of traffic behavior prevails, we are afraid our forecast will be tragically accurate," Dearborn said.

## Six Soldiers Of '65 Close Historic Books Of The GAR

Indianapolis, Aug. 31.—(AP)—Six soldiers of '65 closed the historic books of the Grand Army of the Republic today, too old and tired to fight for more encampments.

After their last parade and "campfire" reminiscences tonight, they go home tomorrow with their dimmed memories of Antietam and Chickamauga.

In a closed business session today, they resigned themselves to abide by a decision made last year—that this is the last time the Grand Army meets. Theodore A. Penland, a brisk 100-year-old from Vancouver, Wash., remains commander-in-chief for life.

"There isn't a man here who could come another year—except me," said 108-year-old James A. Hard of Rochester, N. Y. He tried to see the old comrades around him, but America out in Los Angeles.

## Deserter Of Russ Air Force Heads For Home

REICH BORDER GUARDS DESERT SOVIET ZONE

Hamburg, Germany, Aug. 31.—(AP)—German border guards in the Soviet zone are being replaced by veteran communist-trained police to halt large-scale desertions, western police said today.

They said many Soviet zone guards had fled to the west because they feared being drafted for service in the Balkans.

## Count Giorgio Cini Killed As Plane Crashes In France

Cannes, France, Aug. 31.—(AP)—Italian Count Giorgio Cini was killed today as his private plane crashed in circling back low after takeoff so he could wave goodbye to actress Merle Oberon.

The movie star, who had seen him off on a flight to Venice, witnessed the crash and fainted. When revived she said: "My life is finished. There's no point in going on."

The 31-year-old count as president of a company owning hotels in Italy, including the Lido in Venice and the Excelsior in Rome.

Killed with him in his twin-engine Cessna was his pilot, Giorgio Giardello, 26, who was burned in the plane. Count Cini's body was thrown some distance away.

Miss Oberon, former wife of British movie producer Sir Alexander Korda, had been a guest at the Count's castle in Northern Italy and they have been together here on the French Riviera.

She said she had tried to persuade Cini to go by train because she felt something might happen if he went by plane today.

## Aerial Photograph Of Washington Is Found In Nightclub

Washington, Aug. 31.—(AP)—A high-level aerial photograph of the Washington area, plainly showing all military installations and withheld from general publication, was found today on the walls of a downtown nightclub and restaurant.

George Bomze, proprietor of the "400" restaurant near the treasury, said the picture was found in the cafe three weeks ago. It apparently had been left by some navy man.

Liking the scene, Bomze said he had it enlarged and mounted prominently in his display of photographs of points of interest around the capital.

It attracted attention at once. Two admirals laughed heartily when they spotted it. Bomze told a reporter, but other navy officials demanded its removal.

Bomze said he refused on grounds that any possible damage to security already had been committed.

## Uses Awning Crank To Rout Robber

Chicago, Aug. 31.—(AP)—A 40-year-old saleswoman in a loop gift shop used an awning crank today to beat off a husky, six foot would-be robber.

Mrs. Josephine Glassford, fire feet three inches, told police the man knocked her to the floor with his fists, bruising her face. As he tried to open the cash register, she belabored him with an awning crank, driving him empty-handed from the shop.

"He's been in here before," Mrs. Glassford said. "He always bought friendship and sweetheart cards."

## Senate Passes Bill Raising Minimum Wage To 75 Cents

Washington, Aug. 31.—(AP)—A bill raising the minimum wage in the Wage-Hour act from 40 to 75 cents an hour was passed by the Senate today.

It now will go to a Senate-House conference committee which will compromise differences between it and a bill already passed by the House.

The Senate decision, taken on a voice vote, was a partial victory for President Truman, but to get the measure through speedily, his lieutenants had to abandon attempts to extend the Wage-Hour act to millions of workers now exempt.

Senator Pepper (D-Fla.), floor manager of the bill, said that about 1,500,000 of the 22,000,000 workers covered by the law now are being paid less than 75 cents an hour.

He estimated that the measure would boost the wage costs of employers by \$365,000,000 annually. The law applies to workers in interstate commerce businesses.

## Council Of Europe Agrees On Sharing Plan Of ERP Funds

Paris, Aug. 31.—(AP)—The council of the Organization for European Economic Cooperation (OEEC) tonight adopted a report calling for the division of about \$3,670,000,000 among 19 areas taking part in the OEEC.

The council thus agreed to accept the latest recommendations for sharing Marshall aid for the fiscal year 1949-50.

The division problems caused many bitter arguments in the OEEC, as each country tried to justify its needs for additional allocations. The council finally asked Robert Marjolin, secretary-general of the OEEC, and Baron Sney of Belgium to draw up a plan.

It was the Marjolin-Sney plan which was accepted tonight. The report will be submitted to the American Economic Cooperation Administration (ECA).

Under the plan, Britain is allotted \$962,000,000. It is considerably less than the \$1,516,000,000 deficit Britain estimated for herself, but \$118,000,000 more than was originally allotted.

## F. D. R., Jr., Weds Suzanne Perrin, New York Socialite

New York, Aug. 31.—(AP)—Rep. Franklin D. Roosevelt, Jr. (D-N.Y.) was married today to Miss Suzanne Perrin, a slim, blonde socialite who had a hitch in the marriage during the war.

A simple ceremony in the bride's apartment home on East 66th street joined the pair who met only last spring and had been engaged only six weeks. He is 35, she 26.

It was the second marriage for Roosevelt, who recently was divorced from the former Ethel Du Pont, and the first for Miss Perrin.

Roosevelt's mother, Mrs. Franklin D. Roosevelt, her longtime secretary, Miss Malvina Thompson, and less than a score of other relatives and close friends attended the wedding. The third son of the late president, recently elected to congress from the 20th district here, had his brother, Elliott, as best man.

Miss Perrin's maid of honor was her cousin, Miss Genevieve Spinoia, who lives in Rome. The Rev. Dr. Lee Vaughn Barker, pastor of the Broadway tabernacle, performed the ceremony.

## Bolivia Announces Fall Of Two More Cities To Rebels

La Paz, Bolivia, Aug. 31.—(AP)—The government announced tonight the fall of two more cities to rightist rebels who earlier had been forced to surrender their stronghold at Cochabamba.

The government confirmed the rebels had taken Yacubiba, an important oil center on the Argentine frontier, and Sucre, 250 miles south-east of La Paz.

This made four important centers in the hands of forces led by the National Revolutionary army (MNR), which launched a revolt Saturday to overthrow Bolivia's middle of the road government.

The others are Santa Cruz in the eastern Bolivian oil fields and Potosi in the tin mining south. Loyal forces which occupied Cochabamba today swept on from that city and attacked Santa Cruz and Potosi, a general staff announcement said tonight.

## MAN, 77, CHARGED IN DEATH OF 71-YEAR-OLD

Marion, Ill., Aug. 31.—(AP)—Seventy-year-old Josh Levi Kent was charged with manslaughter in the shooting last Friday of Marshall Meredith, 71, and released on \$1,000 bond today.

The old age pensioners lived in the same building but in separate apartments. Kent said they quarreled over his refusal to lend Meredith money. At a coroner's inquest, Mrs. Meredith, who was a witness to the shooting, denied that the quarrel involved her.

## American Legion Calls On U. S. To Help Chinese Against Reds

Philadelphia, Aug. 31.—(AP)—The American Legion today refused to write off China as lost and called on the United States to help the Chinese fight the Communists.

The Legion, in a resolution approved unanimously at its 31st national convention, appealed to the Chinese people to "throw out all foreign ideologies aimed at setting up totalitarianism domination in the interest of a foreign power."

And the 2,500,000-member veterans organization called for the U. S. government's "immediate aid in forming" a Pacific Regional Union along the lines of the Atlantic pact.

Secretary of Defense Louis Johnson told the convention the United States can insure permanent peace only by "keeping awake and preparing accordingly."

Johnson, former national commander of the legion, declared that "We shall build our ramparts so strong that no aggressor will dare attack us. We must achieve peace—and we will achieve it."

"We will achieve it in the only way possible in this world of today—affirmatively — by unmistakable strength on land and sea and in the air."

The defense secretary, in what he described as his first public address as head of the new department, said Russia has been following since the day the same course Japan took at the end of World War I.

But the United States "had not yet fallen completely asleep," he said. "Now we are fully awake, grimly determined that history shall not repeat itself. Already we have gone on the installment plan."

a long way to correct the mistake of our demobilization stampede."

The U. S. Army, Navy and Air Force are "getting better every day, stronger and more efficient," Johnson said. "Moreover they are rounding themselves into one team—a team that will make all our enemies stop, look and listen before attempting aggression across our tracks."

In its China resolutions, the legion said it is impelled "to reject defeatism and abandonment of 'China' to Communist aggressors."

The legion also affirmed its faith in the United Nations; the Marshall plan; the North Atlantic pact. "We are opposed to Communism under any cloak," the legion said. "Apprehension of the aggressors constitutes surrender of our freedom in any way a payoff for favors."

## Vaughan Says It Was Not For Favor

Washington, Aug. 31.—(AP)—Maj. Gen. Harry Vaughan acknowledged today that he got campaign money from a lawyer who sought a presidential pardon for his client, but he vigorously denied that the contribution was in any way a payoff for favors.

The senate committee looking into Washington's "influence industry" also heard that Vaughan, who is President Truman's army aide, was once investigated — and cleared — by the FBI.

This investigation was started, it was said, after a rumor had gone around that Vaughan had taken a \$10,000 bribe to fix an income tax case.

McCarthy Gets Nowhere

Though Senator McCarthy (R-Wis.) tried his hardest, he got nowhere on his suggestions that the FBI also had investigated Vaughan in connection with a study of the liquor industry.

"Never heard of it," said Vaughan. With today's testimony, the senate investigations committee finished its cross-examination of Vaughan. And although the general spent five questioned-filled hours on the stand, he remained unshaken in his contention:

That he has done favors for many a friend, and many a stranger, but that never has he done anything improper or dishonest.

As for the pardon case, Vaughan said it was this way: William H. Neblett had come to him to see about a pardon for Robert Gould of Cincinnati. Gould had been convicted of black market liquor dealings and sentenced to six years in the federal penitentiary.

Made Appointment

Vaughan said he made an appointment with the justice department for Neblett. Later, he said, Gould was let out. But Vaughan thought that was a full year later, and that Gould didn't get a presidential pardon, but a parole.

McCarthy said Gould got out late in 1948 or early 1949, and that Neblett had made his contribution in the 1948 campaign.

Was there some link? McCarthy wondered. "I don't think that had a thing to do with it, senator," said Vaughan. Vaughan said Neblett's contribution didn't amount to much. "I senseless of both factions and federal conciliators said that if the couple of hundred dollars," he drivers approve the agreement the strike will end immediately.

The agreement calls for an hourly wage increase of 10 cents, bringing the rate to \$1.87 1/2 hourly, and no change in work schedules, the announcement said.

Union drivers are to meet after midnight tonight to vote on the agreement. If it is approved, the announcement said, the drivers will be back on the job Thursday morning.

"I have no knowledge whatever of any campaign contributions to any political party made by Mr. Neblett, nor of any of the other matters to which reference has been made in the investigation."

At Cincinnati, Gould, who was paroled after serving two years of a six-year sentence for black market whisky dealings, said he had no knowledge of campaign contributions made by Neblett.

In a prepared statement, Gould said "the name of Gen. Vaughan or of any other person mentioned in the current senate inquiry, did not enter into the matters for which Mr. Neblett was retained."

Dirksen Assails Brannan Farm Bill As Political Game

Rockford, Ill., Aug. 31.—(AP)—Everett M. Dirksen today assailed the democratic Brannan plan for farm aid as a political scheme to "put paradise in packages."

He said it is illogical and would result in "billions in deficits." Dirksen is a former republican congressman from Pekin and is expected to seek the GOP nomination for senator from Illinois next year.

He was the principal speaker at the 34th annual Trask Bridge picnic at a grove near Rockford. The sports festival and farm exhibit, along with the polio clinic and picnic, drew about 50,000 persons.

Dirksen said congress could not logically adopt the farm plan drawn by Secretary of Agriculture Brannan without appropriating "other billions to other groups to guarantee their income."

The Brannan plan would keep a high parity guarantee on non-perishable crops like wheat, but would let perishables like milk and meat find their own price level in the public market.

## TAFT SAYS HE WON'T RUN FOR PRESIDENT

Washington, Aug. 31.—(AP)—Sen. Taft (R-Ohio) said tonight he is not a candidate for the presidential nomination in 1952.

## 10 Killed As Navy Plane Crashes In San Diego Harbor

San Diego, Calif., Aug. 31.—(AP)—A big navy flying boat crashed into the sea today after barely clearing San Diego harbor.

Four officers and six enlisted men aboard the 30-ton PMP patrol plane were killed. The craft exploded when it hit just off Coronado's Silver Strand.

Flames from the explosion, which scattered wreckage over an area of 300 yards, could be seen from the naval air station inside the harbor on North Island.

A crash boat from the island and a coast guard rescue flying boat soon reached the scene—the boat within 20 minutes after the explosion was seen.

Only one body was found in the wreckage.

## Truman Asks Labor To Become Partner In All US Affairs

Washington, Aug. 31.—(AP)—President Truman today called upon American labor to become "a full partner" in all the nation's affairs both at home and overseas.

"This year, more than ever, it is a time for a sober evaluation of the problems that labor, together with all other groups in our country, faces in our complex world, and of our mutual responsibility in meeting them," the president said in a Labor Day statement prepared for delivery today.

"Labor has become a full partner in our national economy," Mr. Truman said, and added:

"But today labor must also be a full partner in all our undertakings, not only within our borders but beyond the seas; for in the long run our actions in the field of foreign policy will affect the welfare of every man woman and child."

## Mrs. N. L. Sheehee Named To Run For Auxiliary Leader

Philadelphia, Aug. 31.—(AP)—Thirteen hundred delegates to the American Legion Auxiliary's 29th annual convention today nominated Mrs. Norman L. Sheehee of Rockford, Ill.

Nomination assures election to tomorrow.

Mrs. Sheehee, 52-year-old attractive wife of a Rockford, Ill., physician, will succeed Mrs. Hubert A. Goode of Portland, Ore.

Active in the auxiliary for 22 years, Mrs. Sheehee formerly was president of the Illinois department and national vice president.

## Floods Expected To Cause More Ruin Today

Tokyo, Thursday, Sept. 1.—(AP)—Japan's worst Typhoon in 11 years lashed the crowded Tokyo-Yokohama Metropolitan area last night, killing at least 12 Japanese and injuring more than 100. Floods threaten today to add to the devastation.

The Japanese welfare ministry reported 31 Japanese drowned in the village of Aoi in Gumma prefecture when the Watrosi river breached a levee, but this was not confirmed by national rural police.

Flood Danger Great

Authorities regarded the flood danger almost as great as in 1947 when typhoon-carried rains burst onto the Kanto plain and drowned 2,000 persons in the Tokyo area.

Gusts of wind as high as 100 miles an hour smashed homes, knocked out communications and whipped Tokyo bay into 50-foot waves.

The storm dumped more than 11 inches of rain into the watersheds of rivers that drain into the plain just north of Tokyo.

National police, hampered by shattered telephone lines, said they had reports of 27,000 homes damaged by the high winds.

The U. S. Eighth Army reported one American cut by flying glass and sent to a hospital.

**DREAM HOUSE WAS A NIGHTMARE**

If you have any lingering doubts that simplicity has vanished from present-day living, note well the saga of the little yellow dream cottage in New York City.

Many months ago this small model house was put up on a parking lot in midtown Manhattan. It was raffled off in a fund-raising campaign for Israel. The winner got another house and the model was used for another drive by the American Women's Voluntary Services.

Alfred Birnbaum, a young Columbia University student of optometry, was among those who paid 50 cents for a chance on the house. Probably he promptly forgot about it. Then one morning his wife was awakened at 2 a. m. to learn the happy news over the telephone: the \$15,000 dream house was theirs.

What could be more wonderful? Just think of it, you pay 50 cents casually on a raffle ticket, go on about your business and wake up to find that tiny investment has brought you the little cottage you've been dreaming of. Ah, this America, what a country!

But when the rosy glow of good fortune had dimmed a little, a few hard realities began to show through.

The man who owned the parking lot where the dream house stood wanted the cottage off his property as quickly as possible. Meantime he would charge the Birnbaums \$50 a day rental.

They scouted around and discovered it would cost \$1000 to dismantle the house, maybe another \$300 to cart it away and \$4,500 to put it up again. They couldn't afford any of this expense and had no place to erect the house.

Then Birnbaum learned that his \$15,000 windfall would thrust him into an uncomfortably high income bracket. He had no wish to sample that rarefied atmosphere.

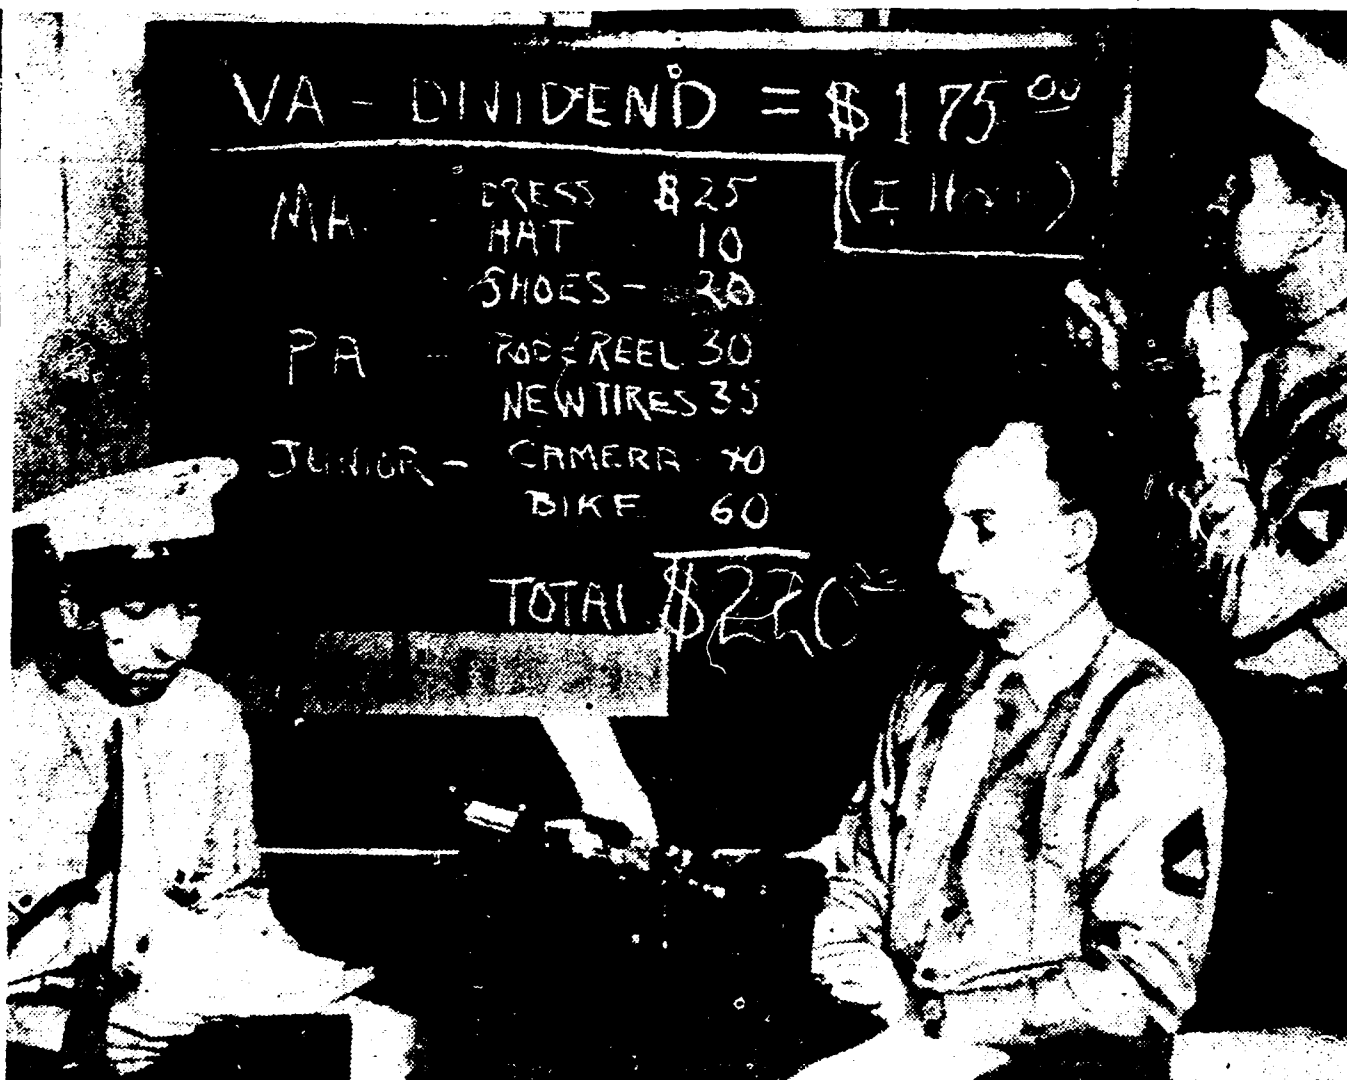

After days of contemplating this catalog of woes, what he did wish was that he could get his 50 cents back and get the little yellow dream house out of his life forever.

But even that was easier said than done. The place began to haunt him. He begged his brother, a lawyer, to find a solution.

Finally a savior turned up. He owned a lot, could pay dismantling, moving and erecting expenses and was willing to give Birnbaum the remarkable sum of \$1200 for his \$15,000 catch. Birnbaum snapped up the deal as if it were the greatest he would ever make in a lifetime.

Now at last he is happily free of his dream cottage. The walk-up flat in uptown Manhattan where the Birnbaums live will never be the subject of a raffle. But on the other hand, nobody is going to order them to get the place out of town by the first of the month.

And as he relaxes in that drab but secure setting, Birnbaum is probably figuring that the next time somebody waves a raffle ticket in his face he'll make the 50 cents an outright gift.

### Train Crew Testifies They Didn't See Car

Three members of a Wabash freight train crew testified Wednesday morning at an inquest into the tragic death of Samuel T. Erickson that they did not see his automobile approach the track at Webster avenue, where it was struck by a west-bound locomotive to which a caboose was attached.

The trainmen said the automatic bell was ringing, and that the whistle was blown for the crossing. They estimated the speed of the engine between 20 and 25 miles per hour.

After hearing four witnesses the coroner's jury returned a verdict that Mr. Erickson, 80 year old real estate broker, died from "shock and internal injuries, with a possibility of a broken neck, by being hit by a locomotive at the Webster avenue crossing, Aug. 28 at approximately 12:40 p. m."

The first witness was Leonard Griffin of Hannibal, Mo., fireman, who estimated the locomotive was traveling about 25 miles per hour. Griffin said he didn't see the car until after the impact, and that he believed the locomotive struck it about center.

The fireman testified that he was leaning over closing a valve as the train approached the Webster avenue crossing, and that he did not see the car. He called to the engineer to apply the brakes when he felt the impact of the collision. Griffin estimated that the automobile was carried 1,000 feet before the engine stopped.

F. E. McNamara of Springfield, engineer on the westbound freight engine, estimated the speed of his engine at 20 or 25 miles per hour. McNamara was in the engineer's seat on the right side of the engine, stating that he did not see the automobile approach from the south. He told of applying brakes and the emergency.

Joseph A. Manuel of Springfield, the conductor, said the first he knew of the collision was when he heard rocks striking the caboose. He was at his desk, he said, and did not see Erickson's automobile until the train came to a stop.

Coroner C. H. Muehlhausen asked Griffin, the engineer, if the train could have been stopped within a shorter distance. The fireman replied that it would have been possible if the engineer had known instantly that the train had struck something.

A written statement of Junior David Meyer, 219 Sandusky street, was read by Mrs. Nancy Schindler, shorthand stenographer at the inquest. David Meyer stated that he was on top of an oil tank truck near Webster avenue when he saw Erickson's car approaching the track slowly from the south. A few seconds later he heard the crash. David Meyer said he heard the train whistle but was not certain if the bell was ringing.

### Trial Of Robbery Suspect To Be Held At Carrollton

Carrollton—The trial of Donald Berry, who is charged with armed robbery, has been set for Oct. 17, at 9 a. m. according to action taken Monday morning in circuit court.

Berry is charged with the robbery of Floyd Huey of Chillicothe, Mo., on the night of May 23, 1949, after he had hitch hiked a ride with the Missouri driver.

During the robbery Huey is alleged to have been struck over the head with a brick and left in an unconscious condition, from which he did not revive until morning.

The grand jury for September was ordered not to report for duty by the Court.

### Man Who Stabbed Wiley Held For The Grand Jury

A Sangamon county coroner's jury Tuesday recommended that Theodore Draper, 24 year old Springfield resident, be held on a charge of murder for action by the grand jury. Draper is held on a charge of fatally stabbing Leon Wiley, 27, of Jacksonville, shortly after midnight on Aug. 23.

Wiley had been dividing his time between this city and Springfield, where his mother resides.

The jury, which convened in the office of Coroner W. L. Drago, decided that Wiley "died of a hemorrhage from a stab wound that severed an artery inflicted by a butcher knife in the hands of Theodore Draper, during an altercation in the Dudley hotel."

A doctor, who examined Wiley soon after the stabbing at St. John's hospital, testified that Wiley was in a profound state of shock and that his clothing was saturated with blood.

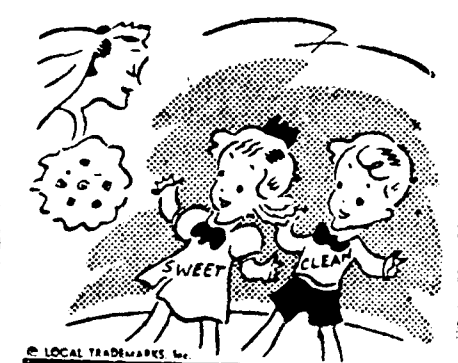

At the time of his arrest, detectives said Draper admitted stabbing Wiley with a 12-inch butcher knife when he found Wiley and Mrs. Draper in a room at the Dudley hotel.

# THE DOCTOR SAYS Caffeine As A Drug Has Definite Medical Value

By Edwin P. Jordan, M. D.  
Written For NEA Service

Caffeine is the principal active drug in both coffee and tea. In view of the large quantities of these beverages which are consumed, it is important to know whether the caffeine in them may cause harmful effects.

Although an ordinary cup of strong tea or coffee contains enough caffeine to have a definite drug effect, this is probably somewhat lessened by the fact that the caffeine,

is associated in these drinks with other substances. Both these drinks act as stimulants which increase mental and physical energy and relieve muscle and mental fatigue to some extent and are otherwise just "comforting."

**Used By Doctors**  
Caffeine as a drug has definite medical value. It is a well known brain stimulant. It is used sometimes to combat some of the harmful effects of acute poisoning with morphine or other depressing drugs. It stimulates breathing and is used in certain cases of asthma and other disorders of breathing.

Caffeine acts also on the heart and the blood vessels. It tends to dilate some of the blood vessels so that more blood may flow through

it is a direct heart stimulant. In the form of tea, coffee, or other beverages containing caffeine, there is usually no harm produced by re-

sponsible moderate consumption. As with any stimulant, excessive use can be harmful. Unfortunately, nervous people are the ones most likely to drink too much and it is in them that injury from caffeine is particularly likely to occur.

When susceptible people do drink too much of some caffeine-containing beverage, they are likely to become excessively nervous, develop pounding of their hearts, headaches, sleeplessness, tremblings, and digestive disturbances. When such symptoms occur from tea or coffee, they are almost always caused by drinking too much, resulting in excessive intake of the active drug caffeine. The symptoms can be quickly lessened by cutting down on the excessive intake.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

**The DOCTOR ANSWERS**  
By Edwin P. Jordan, M. D.  
**QUESTION:** Is streptomycin helpful in treating stomach ulcers?

**ANSWER:** So far as I know, there is no reason to believe that streptomycin is helpful for stomach ulcers. There may be a slight possibility that it would be useful if ulcers became infected, although it is certainly not a useful form of treatment.

## Recalls Visit To City In '94 With Theatrical Troupe

An oldtimer in the theatrical business is writing a story of his 50 years in the entertainment world, and his reminiscences will include a visit to Jacksonville 55 years ago.

Probably there are Jacksonville residents today who recall a theatrical stock company which played an engagement in the baseball park during the summer of 1894.

C. H. Carlton, 506 West 42nd street, New York City, remembers the event very well, as he was one of the players. Mr. Carlton wrote a request this week to the Journal Courier for a photostat from the newspaper files which told of the company's presence in this city.

Mr. Carlton recalled that the theatrical company gave free performances in conjunction with the Jacksonville Street Railway Co., which was headed at that time by Marcus Hook. His memories of this city also were kept fresh because he had a cousin, Miss Ellen Trout, who taught in one of the colleges at that time.

# THE DOCTOR SAYS Diet, Exercise, Sleep Three Big Health Factors

By Edwin P. Jordan, M. D.  
Written for NEA Service

It is said that the Chinese pay their doctors for keeping them well and stop paying when the patients fall ill. There is perhaps some question as to whether this saying is strictly true, but keeping in good health is certainly something everyone wants.

There are certain positive steps which everyone can take in order to increase the chances of staying in good health. The diet is one of these. Everyone should include enough of the basic foods to supply energy, but not so much as to produce fatness which carries serious health risks.

The three basic foods are the starches or carbohydrates, such as sugar, potato, and bread; proteins, which include meat, eggs, fish, fowl, and milk; and the fats, such as oleomargarine, butter, and fat meat. A balanced diet of these foods is needed.

**Minerals Play A Big Part**

In addition to these basic foods, minerals are necessary particularly for the growing child. Calcium,

which is an important part of the bone and teeth, is obtained largely from dairy products. Most other minerals, like iron, which the blood must have, are present in vegetables. Exercise is important. Although a person who gets little or no physical exercise seems to get by with it for a while, in the long run the lack of exercise is likely to show up by decreased vigor and ambition.

Sleep is also an item. Some people need more sleep than others, however. If a person feels rested and energetic after the night's sleep, that is a good sign that enough is being obtained.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

**THE DOCTOR ANSWERS**  
By Edwin P. Jordan, M. D.

**QUESTION:** Is there any way to prevent beauty marks from appearing on the body? Is there any cure for these?

**ANSWER:** I am somewhat uncertain as to what is meant by "beauty marks." There are probably several kinds of skin blemishes to which this name is applied. Without knowing the nature of the skin blemish, it is impossible to discuss treatment.

## Bets Said To Help Mining

Perth, Australia.—(AP)—When a new policeman goes to Collie he learns one thing: Never arrest a man for betting. Collie is a thriving coal-mining town of 5,000 people, 120 miles south of Perth. Collie claims the best record of any mining town in Australia, some say in the world. There is little crime, few drinks, a high rate of production and virtually no absenteeism. Many say Collie has this happy record because the betting laws are not enforced.

Says Mayor John P. Gillespie, who also is inspector of mines: "The betting freedom has done no harm to the town, and moral standards are higher than in most towns. Each Saturday about a dozen bookmakers set up their radio receivers and full betting gear in Throssell Street. About 1000 men sit on boxes in the street and listen to the races. Or stand in hotel bars and have an occasional flutter with the books."

ELEPHANT HAS MONEY BUT NO CRACKERS  
Antwerp, Belgium.—(AP)—A coal miner from the Charleroi area was pulling his wallet out of his pocket to give his son a little money to buy crackers and nuts for an elephant in the Antwerp zoo. The elephant picked up the wallet and quietly swallowed it. The elephant got no nuts or crackers. The mine worker got his money back from insurance.

## Steps to the Moon

THE STORY: Until Barry Bainbridge's millions saved the life of Gaynel Trear's younger sister Pat, Gaynel could not feel that she was enough in love with Barry to accept his proposal of marriage. Then came Pat's emergency operation and Gaynel found herself in debt to Barry. She promises to repay Barry, and tells herself that she will give Barry the answer he wants. However, Fritz shows up one evening at Gaynel's home in Detroit and they go on an evening's pleasure excursion into Canada. Fritz tells Gaynel that he has a chance on a very good job and he is about to tell her "the real reason" for the trip tonight.

THE stop at customs was brief. The entry permits were surrendered—for Fritz hadn't lost his time—and soon they were on their way again. "Such a contrast with last time," Fritz said with a sigh. "You are wonderful as a passport." "Why can't you call me something nice?" Gaynel asked. "First I'm your maiden aunt, and next I'm your passport. I deserve better treatment."

"That's just what you're going to get," Fritz said. "The time has come, Madame, to give you that fourth reason... Heavens! What's that?" He had started to put one arm around the top of the seat again, but now he leaned forward, his face screwed up into a perplexed knot as he listened to the sounds emitting from Jalopee. "What's what?" Gaynel wished he would keep on without so many interruptions. She could not hear anything different; Jalopee's rattles sounded the same to her. Then even her inexperienced ear caught a new sputtering. Jalopee gave forth one more groan and settled in her tracks.

Gaynel said, "What on earth did you stop for? Don't you know you aren't allowed to stop in the tunnel? Even you can't expect to get away with that."

"I told you Jalopee has temperment," Fritz actually looked proud of the fact. "She does as she pleases. No more tunnel can give orders to her."

"You mean she won't go?" "Not until she gets good and ready. Not even then, unless my guess is wrong, from that last groan she gave..."

"Fritz, please talk sense!" "Well, my love," he was getting out of the seat now, preparing to have a look, "me-thinks the differential fell out, the universal broke, the driveshaft has given way..."

"Nothing more?" Gaynel's tone was slightly ironic. "Or are they all one and the same thing?" It looked as though the car was indeed ready for that pasture of junk heap.

"Nothing more," Fritz came around from the back of the car, his inspection completed. "They amount to the same answer. We're stuck. We can go on."

"What'll we do?" Only one other car had passed them in the tunnel. It was late, and cars passed few and far between. "Sit," Fritz replied, climbing back in to do just that again. "Continue our delightful conversation. Until some kind soul comes along. Let's see now," he scratched his head, "where were we?"

now what had been the matter with her. This was the world. This was life. This was love.

"THIS is the fourth reason," Fritz said. He could look at her now like that and she would never try to escape. "The real reason I brought you along on this jaunt. To tell you I'm nuts about you, my sweet. So nutty I'm going to marry you, now that I can. That's what I've been trying to tell you, in my roundabout way. Remember I gave my word to the policeman that I'd be good to you..."

"And I promised to call him if you weren't," Gaynel said softly. This was what moon she had wanted to reach. So much so that neither of them heard another car approaching, or realized it had drawn up beside them, until the driver spoke and brought them down to earth.

"Need a lift?" he asked. "Or is this a sparkling spot I hadn't heard of? Out of gas? Got a flat?"

"This is heaven," Fritz said. "Didn't you know? We don't need any help. Unless you'd report us at the other end of the line, like a good fellow, and suggest they send a wrecker to haul us in."

"Glad to be of service," the man said. He started up again. "I'll tell 'em not to be in too big a hurry," he added with a laugh.

"This isn't as ideal a spot as I thought," Fritz said. "But there should be time for one more kiss and for you to tell me how soon we can get married, my love. I wish we could build our nest right here in this tunnel. Let me hear you say you love me, gorgeous, the same as I love you."

"I love you," Gaynel said, since there was no denial and since nothing else mattered just then. "Say it again!" Fritz insisted. "It sounds like music, baby. And prove it again, too. Put your arms around me sweet."

There were moments of silence before Fritz spoke again. "And by the way, Gay, I'm asking you to marry me, or rather telling you—in case my English isn't straight enough."

### Ceremony Held In St. Francis Church, Quincy

In a beautiful and impressive double ring ceremony held at 9 o'clock Saturday morning, in St. Francis' church in Quincy, Miss Betty Catherine Metzger, daughter of Mr. and Mrs. Arthur O. Metzger, 1820 Lind street, Quincy, became the bride of Louis R. Magnier, son of Mr. and Mrs. James T. Magnier, 339 East College avenue.

Rev. Erhard J. Kuester of Quincy College received the vows and sang the Nuptial High Mass which followed. The sanctuary of the church was beautifully decorated with pedestals of white gladioli, ferns, and palms.

Immediately preceding the ceremony, an organ and violin recital was given by Walter Tanner, organist, and Miss Shirley Damhorst, violinist, both of Quincy. During the Mass, Miss Damhorst played two solos—"Ave Maria" and "Paniis Angelicus."

**Basque Style Gown**  
The bride, who was given in marriage by her father, wore a picturesque gown of white marquisette over taffeta. The long-sleeved gown was fashioned basque style with a hoop skirt, caught at the sides with clusters of flowers, and ended in a long train. The square neckline was trimmed with a rill of French lace. Her double veil, edged in French lace, fell from a tiara of orange blossoms. She carried a bouquet of white gladioli, centered with a gladiolus corsage, tied with white lace ribbon.

The bridegroom's sister, Miss Rosetta Magnier of Jacksonville, was maid of honor and Miss Elaine Damhorst of Quincy was bridesmaid. Miss Magnier's gown was peach color marquisette over taffeta and Miss Damhorst was attired in aqua marquisette over taffeta. Both gowns featured hoop skirts and were fashioned similarly to the bride's. Each wore a matching picture hat of marquisette, ornamented with a bow in the back, and long gloves, and carried a crescent-shaped bouquet of white gladioli, tied with peach and aqua ribbons.

Mr. Magnier was attended by his brother, Paul J. Magnier of Jacksonville. Edgar Fetter of Quincy and Clarence Collings of Teutopolis ushered.

For her daughter's wedding, Mrs. Metzger wore a print crepe dress, with robin's egg blue predominating, and black accessories. Mrs. Magnier, mother of the groom, was attired in a grey crepe dress and also wore black accessories. Each wore a white gladiolus.

**Afternoon Reception**  
Immediately following the Mass, breakfast was served at Durst Hall to the members of the bridal party and immediate relatives. In the afternoon, between the hours of three and five, a reception was held at the hall. The wedding cake and bouquets of white gladioli with similar were used in the decorative effects.

As the couple left for Chicago, Mrs. Magnier was wearing a pink suit with grey accessories, accented with the corsage from her wedding bouquet. Upon their return to Quincy, they will reside at 1222 Madison street.

Mrs. Magnier is a graduate of Notre Dame high school in Quincy and has been employed in the offices of the Pepsi-Cola Bottling company.

Mr. Magnier is a graduate of Routh high school. After completing three years' service with the United States Navy during World War II, Mr. Magnier entered Quincy College and will enroll for his senior year this fall.

Among those attending the wedding were Mr. and Mrs. James T. Magnier, Miss Margaret McHattan, Mr. and Mrs. Paul J. Magnier, Miss Rose Magnier, Mr. and Mrs. Howard Busey and son, Philip, Donald Lee Magnier, Mr. and Mrs. Charles Lockman and daughter, and Miss Rosetta Magnier, all of Jacksonville, and Mr. and Mrs. Charles W. Magnier and daughter, Mary Christine, of South Bend, Indiana.

**NORTHERN BREEZE  
THROWS MERCURY  
INTO TAILSPIN**

A lot of windows in Jacksonville, particularly those on the north side of the house, were pulled down early Wednesday evening as the weatherman let loose a chilling blast of cool air from that direction. Before the night was over almost that many blankets and comforters were brought out of their storage spots.

The nippy breeze shook the thermometer from its high mark of 83 down to 51 at midnight. The prospect was that it would drop even lower, for the south side treatment plant thermometer ebbed four points between 11 p.m. and midnight.

Evening strollers donned heavy clothes before they came to the business district last night. There was only one T shirt seen after 10 p.m. and its wearer said he was "plenty uncomfortable."

Marion, Ill., Aug. 31 — (P) — A 20-year-old Heroin factory worker charged with murdering his father pleaded guilty to manslaughter today. He was released under two years' probation with a neighbor named as his special probation officer.

Robert Trout, 20, killed his coal-miner father, Ernest, 50, with a shotgun at their Ferguson home on Feb. 12. They had quarreled over the son's late return home from a tavern. The youth has been free on \$5,000 bond since he was indicted on a murder charge.

The charge was reduced to manslaughter today on the recommendation of Charles Denham, Williamson county state's attorney. Judge H. L. Zimmerman passed the sentence and named Troy Bandy, a special probation officer.

**Pekin And Peoria  
Bakers To Strike**

Peoria, Ill., Aug. 31 — (P) — Thirty-two AFL bakers, employees of 11 shops in Pekin and Peoria, voted to strike at midnight in support of a \$2.50 weekly wage increase demand.

Bakers employed in six other shops in the area which have granted the raise will stay on the job. A union spokesman said.

The strike vote was taken by Local 145, AFL bakery workers union, after rejecting an offer by the bakery owners of \$1.50 a week raise, effective Sept. 1.

At present, bakers' pay here ranges from \$39 to \$68 a week. The union wants any raise to be retroactive to Aug. 1.

Since the union was organized here in 1901 it has had but one strike in 1919.

## Arenzville Club Sponsors Successful Cass-Scott Soil Day

Arenzville Community club members were the sponsors of Tuesday's soil conservation district field day which was held in cooperation with district leaders of Cass and Scott counties on the Noah Thompson farm tenanted by Edward L. C. Carls, southeast of Virginia.

The photograph at the left shows a new implement, a field leveler, busy at work shaping a grass waterway. The large crowd saw modern machinery working at various jobs over the farm. The implements were exhibited by machinery dealers of the two counties.

Joe Pierre, center, made the day's principal talk. He advocated greater use of grasses and legumes in the rotation.

The next photo shows the district officials and technicians of Cass county. A. T. Dunn, the president, left, introduced the group: Farm Adviser E. E. Lamont, Mr. Carls, Maurice Jokisch and William Petefish, district board members, Sherman Orr, Cass county conservationist, and H. F. Rigg, his aide.

**President Decides  
To Fight Out Trade  
Law In The Senate**

Washington, Aug. 31 — (P) — President Truman decided today to fight out the reciprocal trade law battle in the senate this fall instead of accepting a stop-gap extension.

This is expected to have two far-reaching results:

1. The bitter tariff issue will be up for public debate during the ticklish international conference on Britain's dollar crisis.

2. Final adjournment of congress will be delayed indefinitely.

The decision to call for a senate showdown immediately after the Labor Day holiday was reached at a White House conference attended by the President, Secretary of State Acheson, Senate Democratic Leader Lucas and Chairman George (D-Ga.) of the senate finance committee.

The finance committee last March approved a bill extending the trade law, but it did so by a straight party-line vote with the seven Democratic committee members for it and the six Republicans opposed.

Mr. McEvers was the son of Byron and Lucy McEvers. He is survived by his wife, Neva, and one daughter, Mrs. Burley Barnett of Glasgow. He also leaves two sisters, Mrs. Potter of Granite City, and Mrs. Lola McLaughlin of Winchester; and several nieces and nephews.

The body was taken to the Cunningham Funeral Home in Winchester and will be returned to the residence Thursday afternoon.

Last rites will be conducted at 2 p.m. Saturday at the Glasgow Baptist church with Rev. Charles Leitz of Winchester officiating.

Burial will be in Glasgow cemetery.

**Pekin And Peoria  
Bakers To Strike**

Peoria, Ill., Aug. 31 — (P) — Thirty-two AFL bakers, employees of 11 shops in Pekin and Peoria, voted to strike at midnight in support of a \$2.50 weekly wage increase demand.

Bakers employed in six other shops in the area which have granted the raise will stay on the job. A union spokesman said.

The strike vote was taken by Local 145, AFL bakery workers union, after rejecting an offer by the bakery owners of \$1.50 a week raise, effective Sept. 1.

At present, bakers' pay here ranges from \$39 to \$68 a week. The union wants any raise to be retroactive to Aug. 1.

Since the union was organized here in 1901 it has had but one strike in 1919.

For the next six years millions of men fought, with old weapons and new. Air Armadas clashed in the skies. Ground troops pushed through shattered ports, ruined cities, deserts, jungles, mountain ranges and frozen arctic wastes. The fighting spread to the far reaches of the world's oceans.

World War II absorbed an older struggle—the Chinese-Japanese war which began with a clash at the Marco Polo bridge outside Peiping July 7, 1937.

Estimates have been made of what World War II cost in human lives and wealth, but mankind has no instrument to measure the amount of suffering and sorrow it provoked. Economic dislocations of the war have not yet been completely erased.

22 Million Died  
Military and civilian dead in the war are believed to total 22,000,000.

The foundation until now has conducted one campaign each year, the January "March of Dimes."

O'Connor said the foundation has spent \$5,078,000 on new cases this year. A \$3,000,000 fund remaining for that purpose will be spent by Nov. 1, he said, and the new campaign will have to be started by that time.

From Alaska About  
Deaths Of Guards**

Chicago, Aug. 31 — (P) — A federal bank robbery charge against Richard Tamborski, 28, was dismissed today to permit the state to question him about the killing of two armed express guards in the holdup.

Tamborski was brought by airplane from Anchorage, Alaska. He turned himself in to Federal Bureau of Investigation agents there on Aug. 19.

In Anchorage Chief Special Agent Clinton W. Stein said Tamborski denied any connection with the case, but said he knew an FBI warrant for his arrest was out when he left Chicago Aug. 9.

Federal Judge John P. Barnes dismissed the charge of robbing a federally insured bank at the government's request.

Then Tamborski was turned over to Illinois authorities. He is being held without charge. Police took him to the detective bureau for questioning.

In making the award, Hayes noted the general once headed the Legion's national defense committee "and for many years led its fight for adequate preparedness."

Also receiving the distinguished service medal at today's 31st convention session was Miss George Herman Ruth, who accepted it on behalf of her late husband, baseball's immortal "Babe," President Truman received this year's third award when he spoke here Monday.

The Legion's highest decoration was presented to Mrs. Parker by past National Commander Edward A. Hayes, Chicago.

## War Started 10 Years Ago When Nazi Blitz Hit Poles

By the Associated Press

Ten years ago today Germany hurled her armed might against Poland. That act touched off World War II—the bloodiest, most destructive conflict in human history.

For the next six years millions of men fought, with old weapons and new. Air Armadas clashed in the skies. Ground troops pushed through shattered ports, ruined cities, deserts, jungles, mountain ranges and frozen arctic wastes. The fighting spread to the far reaches of the world's oceans.
